Installation

Boardway PVC fencing system is very convenient to install. It can be installed on an existing metal fence panel, and it can be easily installed by one person. Our PVC fence slats bring the fun of hands-on assembly and saves the labor costs of professional installers.

- 

1 Place the clips on the horizontal bottom wire.
- 

2 Place the V-slats in the folds of the panel. Put 2 super-slats at a distance of 1m from one to the other to fix the V-slats.
- 

3 Slide the rest of the super-slats and block them with the clips. Place the 2 small super-slats at both sides of the panel next to the posts.
- 

4 Place the finishing U-slat on top of the panel.

What We Do?

Manufacturing, wholesale and custom processing

Boardway has been one of China's top professional manufacturers of plastic sheets since 2006. For 15 years, Boardway has devoted all its energy to the production of plastic sheets.

We have advanced research and development capability, a stable supply capacity, 8 extrusion production lines for foamed PVC board, which can not only meet the fast delivery, but also meet the orders in large quantity. We also have professional technical support and 24/7 high-quality service.

Custom processing is also what Boardway is good at. We provide customers with customized processing services for all plastic products.

For example, to provide customers in the building and decoration industry with CNC cutting, PUR laminating, sanding, chamfering, etc. Provide silk screen printing, UV printing and die cutting for customers in the advertising industry. Provide customers in the manufacturing industry with thermoforming of thermoplastic materials.

China has a large number of suppliers and different product quality, so how to choose a Chinese supplier? Boardway is willing to help you do supplier selection and resource integration.

We have a natural geographical advantage and can help you to confirm the product quality of each supplier, even visit their factory to check the authenticity. What we can do includes sourcing, prototyping, procurement, module assembly, product testing and improvement.
